

The 2022 Wall of Fame

Below are examples of a challenge and students projects. Note that these are just excerpts of students' projects which are originally part of a full presentation..

SDG 13: Climate Action (November, 2022)

Climate change has become a common cause for concern for businesses, governments, and communities across the world today. Rapid urbanisation and globalisation have led to an unprecedented increase in demand for energy, and energy-related CO2 emissions have increased by the highest ever level of 6% in 2021. The increase in carbon emissions have resulted in rising global temperatures, which has significant impact on both people and nature.

As future entrepreneurs, how can you create innovative products and solutions that address climate change and, at the same time, bring opportunities for growth?

Example:

The Challenge

Create a digital poster for your products (Parka Jackets). Provide at least 2 key features of your product. Highlight your product's relevance to SDG 13 - Climate Action. Introduce your product to the audience and remember to explain your choices.

Student Project
